SHIP PERFORMANCE

This data is brought to you in cooperation with [Marine Benchmark](#).

Vessel operation analysis

The data below is for demo purposes only. To view real data you will need to add the [Benchmark Module](#) to your subscription.

Ship Performance Data

No operation data available for this ship.

i Demo data shows how the data are formatted in the full product. For oldest period sharp data is shown. Please contact IHS Maritime for any question or subscriptions. Time moving/still is identified as time in speed over/under 1 kn. Average speed is calculated for time in speed over 6 kn. Time moving in SECA area is percent of total time in full month and not percent of time in SECA. For more detailed, longer analysis or SECA area analysis please contact Marine Benchmark.

Vessel trading area analysis

The data below is for demo purposes only. To view real data you will need to add the [Benchmark Module](#) to your subscription.

Ship Performance Data

No trading area data available for this ship.

i Demo data shows how the data are formatted in the full product. For oldest period sharp data is shown. Please contact IHS Maritime for any question or subscriptions. Time in area is defined as all time still or moving. The globe is divided into 9 highly aggregated trading areas (for area definitions, please see the help file under help tab or in a link at the top of this section). For more detailed geographical analysis, first down to 18 well defined and market based trading areas, containing US gulf, Sain Lawrence seaways etc. Or any custom defined area on the globe please contact Marine Benchmark.
